<b>Office Action Summary</b>	<b>Application No.</b> 10/573,786	<b>Applicant(s)</b> YOSHITAKE ET AL.	
	<b>Examiner</b> Marie R. Yamnitzky	<b>Art Unit</b> 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1794

1. The preliminary amendment filed March 28, 2006, which cancels claim 1 and amends claims 5 and 7, has been entered.

Claims 2-7 are pending.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 2, 3 and 5-7 are rejected under 35 U.S.C. 102(a) as being anticipated by JP 2004-146368.

Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

The foreign language document was provided by applicant. A machine translation is provided with this action.

Compound 7-6 as represented by the last formula on page 20 of the JP document is a compound represented by formula II as defined in present claim 2 and further defined in present claim 3 wherein each of Ar<sub>1</sub>-Ar<sub>3</sub> is an unsubstituted aromatic hydrocarbon group and X1 is an unsubstituted divalent aromatic hydrocarbon group.

Art Unit: 1794

Compound 7-6 is an example of a compound taught by JP '368 for use in an organic layer of an organic electroluminescent device having one or more organic layers between an anode and a cathode. The compound may be used in the light-emitting layer as a host material, and a phosphorescent ortho-metalated metal complex or porphyrin metal complex as required by present claims 5 and 6 may be used as a dopant material in the light-emitting layer. For example, see paragraphs [0067]-[0074].

The device may further comprise a hole-blocking layer and/or an electron-transporting layer between the light-emitting layer and the cathode as required by present claim 7. For example, see paragraphs [0060]-[0061].

4. Miscellaneous:

In line 2 of claims 5 and 7, "claims" should read --claim--.

5. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. (Alternatively, if a certified translation of applicant's foreign priority application is filed and supports at least present claims 2-4, claim 4 need not be rewritten.)

6. Any inquiry concerning this communication should be directed to Marie R. Yamnitzky at telephone number (571) 272-1531. The examiner works a flexible schedule but can generally be reached at this number from 7:00 a.m. to 3:30 p.m. Monday-Friday.
